A LITTLE ABOUT ME

Hello, you can call me Gustavo. I'm a Brazilian guy who loves technology and programming. I'm 30 years old and currently residing in Brazil. I have been working as a full-stack developer for about 6 years now. My journey into programming began in 2012 with the C language during my time studying Electrical Engineering, from which I eventually dropped out to pursue a more programming-oriented course. Also, I have a cat named Zelda.

WORK EXPERIENCE

Full-Stack Developer

GERMAN TECH SISTEMAS https://germantech.com.br

2018 - 2023 Toledo, Brazil

- Developed a widely commercialized ERP (Java EE), which serves more than a thousand companies in Brazil.
- Developed an internal CRM project (Ruby on Rails) that assisted the company to prospect new customers.
- Developed a English School project (Ruby on Rails) to enhance students learning and progress tracking.
- Designed and launched a new commercial CRM (Angular and Rails) offered with the company ERP subscription.
- Designed and launched a web version (React and Spring) of the existing ERP, as it was previously only available as desktop software.
- Designed and launched a mobile version (React Native) of the existing ERP using database multitenancy architecture. (Java Spring)
- Designed and launched a Customer Service chat tool (React and Express.js) for use by the technical support team with WhatsApp numbers.

MY PROJECTS

FINDDOMAINS https://finddomains.net

2024 - Current

A SaaS project to help users in searching and checking the availability of new domains, also providing alerts when a domain is nearing expiration or is put up for sale.

FUTURES TRADING BOT https://futures.gus.sh

2023 - Current

A bot designed to trade crypto futures on Binance by utilizing trading simulators and implementing various strategies.

PERSONAL WEBSITE https://gus.sh

2023 - 2023

My new personal website showcases a glimpse into who I am, what I do, my interests, and my knowledge in web development.
